

## YKK AP introduces new heavy duty window

AUSTELL, Ga. (Oct. 6) - YKK AP publicly announced its new YOW 350 T Heavy Duty Window System today at GlassBuild America 2008 in Las Vegas.

The YOW 350 T is ideal for such applications as schools, hospitals, office buildings, and condominiums. The new window product is available in YKK AP's Anodized Plus® finish and can also be dual finished. The product also features the newly introduced YKK AP brand, AAMA 904 certified four-bar hinge.

This 3-1/2 inch high performance window is glazed with insulating glass and is available in multiply configurations of fixed, casement, or projected units. YKK AP's MegaTherm® thermal break allows this system to have separate interior and exterior finishes.

The YOW 350 T operable windows have optional NYC DOHMH certified window guard limit devices as well as a complete accessory package of strap anchors, receptors, sill starters, and mullions.
