

Back in the 21st century, who transformed
the sustainable schools we use today?

Entrances
Storefronts
Curtain Walls
Sun Controls
Windows
Balcony Doors

YKK AP products fit the architectural, environmental, and economic needs of every school. From our innovative sun control systems to our entrances, windows, and curtain walls, YKK AP provides sustainable solutions for the entire building envelope. Our ThermaShade™, the only thermally broken sunshade and an International Design Excellence Award winner, adds to a building's design and creates opportunities for LEED® credits. And our unique, new Luminance™ light shelf helps bring natural light to learning spaces and flips down easily to make cleaning a snap. Schools that earn straight A's are built on YKK AP quality.
