YWW 45 FS

High Performance Window Wall System with Monolithic Glass

The **YWW 45 FS** is designed specifically to meet the performance requirements of window walls for multi-story buildings. Glass is set to the front of the system to maximize thermal performance and maybe glazed from either the interior of the building for labor savings or from the exterior at column line applications. This system can be installed with head and sill members running continuously or with the head and sill members cut in between the vertical members. Sill flashing is only required when the head and sill members are cut in between the verticals.

- Optional SSG Intermediate Vertical
- Perimeter Members: 1-3/4" x 4-1/2"
- Strap & Roll-Over Anchors are available for Precast Conditions
- Integrates with our YKK AP Entrances
