

H-4200 Series

Standard Locking Hardware Sets

Description

- 5-Pin - mortised, 1-5/32" (29.4mm) diameter.
- Standard Cylinders are key operated on the exterior and thumbturn operated on the interior.
- Blank or Dummy Cylinders available as an option.
- Keyed alike cylinders are available, when specified.
- Master keying and unique keying systems are special order and manufacturing must be contacted.
- Cylinder Guard is a kit including tapered and hardened steel collar with hardened steel retainer plate.
- Cylinder Guard's collar designed to protect the vulnerable softer brass cylinder. Guard held in place with retainer plate for extra security.
