Commercial
Standard Entrance
Hardware

Description

- Depressing touchpad “unlocks” the device and permits egress. The bolt re-engages the strike and locks when the door closes.
- On single doors, adjustable strike is mounted on the frame lock jamb.
- Cannot be keyed and requires special prep for utilization. Strikes are included with the chosen exit device.

Compatible Entrances

All YKK AP Entrances

Material Composition

Aluminum Mullion with Stainless Steel Hardware

Application

- Removable mullion is required on pairs of doors. Using optional mullion stabilizers is recommended.
- Touchpad design offers increased building security and reduces the risk of code infringements.
- Steel reinforcement required for use with Model 35H Entrances.

Finishes

Coated Finish: 628 Clear or 335 Black
Housing with Anodized Aluminum Touchpad
