

P-56410

Optional Removable Mullion

Description

- Depressing touchpad “unlocks” the device and permits egress. The bolt re-engages the strike and locks when the door closes.
- On single doors, adjustable strike is mounted on the frame lock jamb. Adjustable strike is part of removable mullion required for door pairs.
- Panic device can be deactivated “dogged” with cylinder key or allen key. Keyed alike cylinders are optional.
- Rim Cylinder diameter of 1-5/32” (29.4mm); cylinder specified above.

Usage

All YKK AP Entrances except the 35H Entrance

Material Composition

Aluminum Mullion with Stainless Steel Hardware

Application

- Removable mullion is required on pairs of doors. Using optional mullion stabilizers is recommended.
- Touchpad design offers increased building security and reduces the risk of code infringements.

Finishes

Clear and Black; painted housing with anodized aluminum touchpad. Other finishes available on special order, contact factory for details.
