

YKK AP America Wins Money-Saving Product Award for its Thermashade Sun Control System

AUSTELL, GA. (August 2016) – The ThermaShade Sun Control System from [YKK AP America](#) was honored with a [BUILDINGS](#) Money-Saving Product award. The Money-Saving Product awards showcase the top commercial building products that the magazine’s editorial staff saw the most potential for cost savings in.

“We are honored to receive a BUILDINGS Money-Saving Products award this year,” said Oliver Stepe, president, YKK AP America. “It is our goal to offer budget-friendly products to our customers that meet their needs.”

BUILDINGS features hundreds of products and projects throughout the year. Selected by the magazine’s editorial staff, the Money-Saving Products awards honor an elite group of economical solutions for commercial building managers. The 76 products range from solutions in lighting and roofing, to energy and safety. These awards are designed to honor products that the editorial staff believes will improve cost-effectiveness in commercial building products and allow facility managers to do more with less.
