Integrated Sunshades Lower Energy Use By Decreasing Solar Heat Gain

YKK AP’s ThermaShade® system is designed to improve comfort and lower energy consumption. Designers now have a solution that can be applied to both curtain wall and storefront facades to maintain a consistent appearance across the building envelope. The systems are available in all YKK AP standard and premium finishes.

When integrated with YKK AP’s thermal curtain wall systems, our innovative anchoring methods ensure that the thermal performances of the host systems are maintained. ThermaShade is the only sunshade system featuring a patented thermal barrier within the attachment anchor. Pre-engineered solutions provide extensive flexibility for design freedom, speed of delivery, and installation.

Product Options & Features
- Over 100 pre-engineered solutions available
- Easy to install hook mechanism on outriggers
- Concealed or exposed anchor options
- Pre-engineered 24”, 30” and 36” projections
- Standardized 90° inside and outside corners
ThermaShade®

TWO ANCHORING OPTIONS

Concealed Anchor
- Conceals fasteners offering a finished aesthetic
- Two concealing cover options
- Pour & Debridged Thermally broken system

Exposed Anchor
- Exposed fasteners offering an industrial aesthetic
- Pressure plate integrated with anchor
- Thermally broken with Nylon Thermal Insulator

THERMAL PERFORMANCE

Thermally-Broken Anchor maintains Curtain Wall u-Factor performance

Non-Thermal Anchor can cause up to a 5% decrease in u-Factor performance

AVAILABLE OUTRIGGERS

- Square Outrigger
- Rounded Outrigger
- Wedge Outrigger
- Curved Outrigger
- 90° Inside Corner
- 90° Outside Corner

AVAILABLE LOUVERS

- 3-1/2” Circle
- 3” Circle
- 2-1/4” Circle
- 3-5/8” Airfoil
- 3” Winged
- 6” Open Airfoil
- Angled Blade

AVAILABLE FASCIA

- 3-1/2” Square
- Rectangle Fascia
- Wedge Fascia
- 3” Circle
