

MAKING MIDWEST MOVES

Expanding our commitment to the region.

We're excited to announce the opening of our new **Midwest Manufacturing Facility**, just outside of Cincinnati. The new 100,000 sq. ft. facility located in West Chester, Ohio, offers an expanded warehouse and increased space for door fabrication operations. Our Cincinnati Branch services are co-located with manufacturing in the new facility.

See what's happening in the region!

YKK AP is making midwest moves in an effort to improve your overall service experience.

INCREASED PRODUCTION & INVENTORY

- Upgraded manufacturing facility for better turnaround
- Higher stocking positions on popular items
- Planning for additional systems to be added to inventory in the near future
- More flexible lead times for fabricated items

REGIONALLY-FOCUSED SERVICE

- Full-service branches (customer service, estimators and project support) located in Cincinnati and Chicago
- Specialized large project support team
- Continuous product development to better address market needs in northern regions
- Engineering support available to help solve specific design challenges

IMPROVED LOGISTICS SUPPORT

- Dedicated freight network covering a majority of the region – minimizing the potential for shipping damage
- Easier highway access and enhanced will-call
