2020 Quality Assurance Training Program

Session 1:

February 17 – February 21

Session 2:

February 24 – February 28

Training begins at 8:00 AM EST Monday and ends by 10:00 AM EST Friday. Please register using the attached form or visit <https://www.ykkap.com/commercial/qatraining> for online registration. Registration is open to YKK AP customers in good standing. Seating is limited and initial registration is limited to **one attendee per company**. Additional requests will be confirmed as space allows. **Please send a check for \$375.00 ALONG with your form.**

Make the check to: YKK AP America, Attn: Beth Whelchel 270 Riverside Pkwy, Suite 100, Austell, GA 30168.

YKK AP will confirm your registration by February 1, 2020. Accepted tuition checks are non-refundable after this date. Please wait until you receive confirmation before making travel arrangements.

Who Should Attend?

Project Managers, Fabrication Shop Supervisors, Jobsite Managers, Supervisors of Glaziers. Trainees should be selected based on their ability to train the rest of your workforce.

Learning Objectives

This training session provides attendees basic knowledge of industry standards and installation procedures to ensure proper installation of Entrances, Storefront, Curtain Wall, Window Wall and Windows.

Program Details and Logistics

YKK AP will provide lunch each day and a dinner one evening. Attendees are responsible for transportation to and from Dublin, hotel expenses, dinners (except 1 night) and any other incidental expenses. Travel time between Dublin and the Atlanta airport is under 2 hours.

Upon confirmation of registration acceptance, YKK AP will send an information package that will include hotel lists (including expected room rates), maps to Dublin, Georgia and a detailed agenda. It is recommended that attendees arrive Sunday evening. Training will begin promptly at 8:00 AM EST on Monday and conclude by 10:00 AM EST on Friday.

Questions? Call Bart Harrington at 678-838-6012

Hot Industry Topics for Discussion:

- Leveraging New Additions to ProTek® to be more Competitive – Impact and Blast Mitigation
- Unitized & Pre-Glazed Systems

Upgrading a building's framing system first can be the most cost effective option for gaining LEED® certification and exercising environmental intelligence. YKK AP's unique enerGfacade® product line provides both ecologically sustainable and economically sensible solutions for the entire building envelope. By offering superior insulation properties in a complete suite of thermally broken products, enerGfacade® simplifies your search for the right products.

ProTek® systems are a comprehensive suite of products that improve safety and security from many hazards, including hurricanes, blast events and break-ins. These products are designed and fully tested to meet the hurricane impact requirements of the International Building Code, blast standards for the Department of Defense (DoD) and the General Services Administration (GSA), including Missile Level E testing.
