Product Description

The popular YCW 750 family of products has been expanded to include 4-side structural silicone cassette glazing. This stick built system is designed for glazing in a climate controlled environment for increased quality assurance of critical seals. Shop glazed cassettes interlock with integral 2 or 4-sided toggle adapters on horizontals to create full width engagement top and bottom.

Product Options & Features

- 4-side structural silicone shop cassette glazing
- 4-Side captured (YCW 750 OG & IG) integration
- 90° inside and outside corners
- Accommodates splayed wall designs
- Structural setting block chairs
- Dual Finish capability (Interior & Exterior) with a variety of face covers available
- Sealant is used by default and 3M™ VHB™ Structural Glazing Tape is supported as an alternative

U-Factor Values as low as 0.28*
CRF Minimum 74 frame & 65 glass

*Based on AAMA 507. Lower values may be achieved through further simulation.

YCW 750 SSG  (Field Glazed)
Two and Four-Sided Structural Silicone Glazed Curtain Wall System

Product Description
The popular YCW 750 family of products has been expanded to include 4-side structural silicone glazing. This stick built system setup is designed for glazing in the field for easy installation. A variety of mullion depths are available as options to meet different performance requirements. 1” glazing is and 1/4” (with adaptor) is available for 2-sided and 1” glazing only for 4-sided.

Product Options & Features
- 2-side or 4-side structural silicone glazed in field
- 4-Side captured (YCW 750 OG & IG) integration
- 90° inside and outside corners
- Accommodates splayed wall designs
- Dual Finish capability for 2-sided (Interior & Exterior) with a variety of face covers available
- Sealant is used by default and 3M™ VHB™ Structural Glazing Tape is supported as an alternative

U-Factor
Values as low as 0.30*

CRF
Minimum 74frame & 68glass

*Based on AAMA 507. Lower values may be achieved through further simulation.

**CRF**

- Frame: 74, 76
- Glass: 68, 69

**FIELD GLAZED OPTION**

For the Field Glazed option, the glazing is set right against the horizontal mullion using silicone as opposed to the Shop Glazed option, which glass panels are set up inside cassette pieces and inserted into the pocket in the horizontal mullion and secured with toggles.
