StyleGuard®
Impact-Resistant Windows

NEW

Ready for Impact.

Costal performance in a new single-hung configuration.

The **NEW** StyleGuard® Single-Hung window delivers impact-resistant performance for coastal construction in a clean, low-maintenance design.

- **Impact-resistant laminated glass** for costal and high-wind conditions
- **Innovative removable top sash** for drywall passthrough and simple replacement
- **Designed to match** and complements our non-impact, flat frame windows with nail fin installation for a cohesive look

Available for order November 30

YKK ap®

StyleGuard® Single-Hung Impact Window

Built for Coastal Performance.

Florida Product Approval (FPA)	FL8114.10

*Ratings may change depending on options.

Features

A **Removable Top Sash:**
For drywall pass-through during construction, and easier cleaning after installation.

B **Double Weather Stripping:**
Optimum protection against air, water, acoustics, and dust

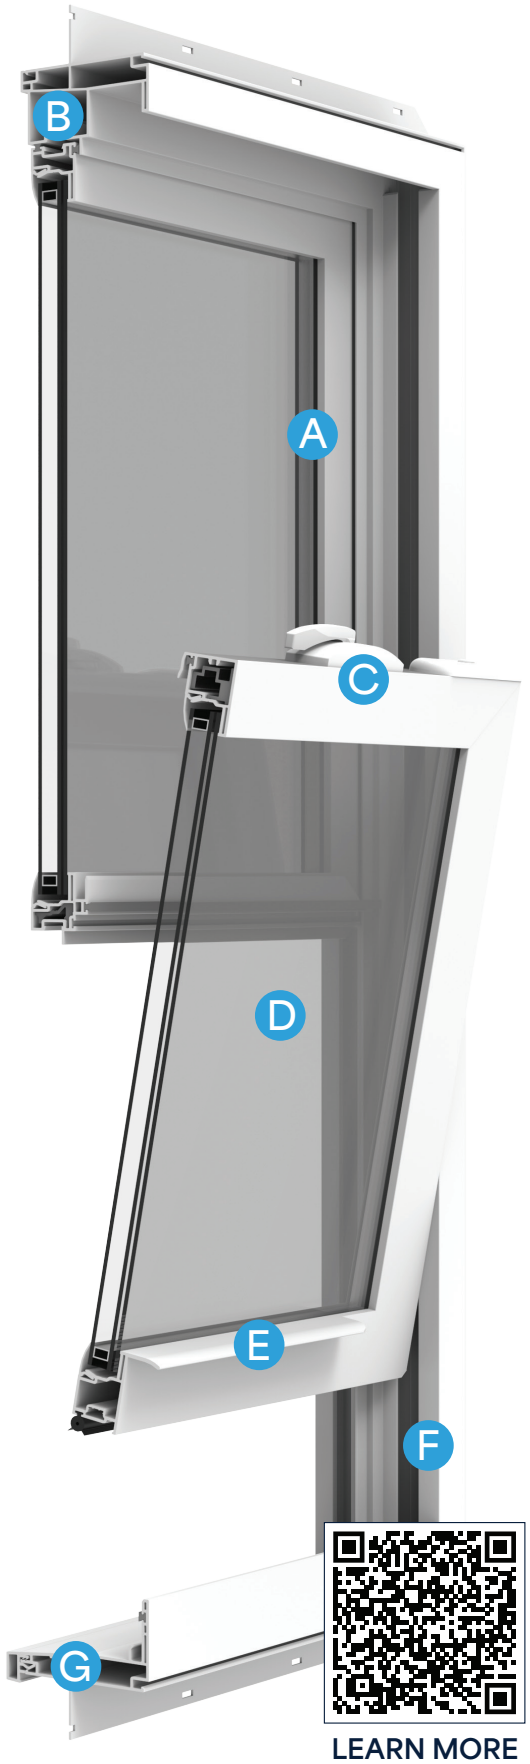

C **Proprietary Cam Locks:**
Provides a tight seal and corrosion resistance for coastal salt air

D **Laminated Insulating Glass:**
Superior glass for protection against wind and debris during extreme weather conditions

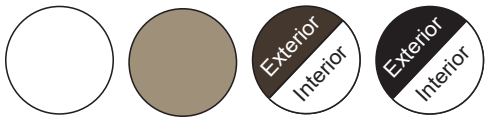

E **Integral Lift Rail:**
Built right into the sash profile which enables easy lift operation

F **Fusion-Welded Frame and Sash Corners:**
A cleaner look aesthetically, while enhancing structural integrity and energy efficiency

G **Sloped Sill and Projected Sill Nose:**
Fusion-welded for correct look and improved water rating
